

an introduction to hamiltons

Hamiltons Architects Ltd www.hamiltonsarchitects.com

OUR FIRM

- Founded more than fifty years ago, we grew to be the fifth largest architectural firm in the UK with a team of 300.
- Our architectural design team in the UK is led by Tim Hamilton and Robert Emery -- with drawing-production support being provided by our team in Delhi.
- Using new technologies our team members work and communicate on-screen from wherever is most convenient – with meeting facilities available in London.

Nitin Soni Architect n.soni@halondon.com

OUR APPROACH

- Decades of experience in our chosen sectors enable us to act as an extension to our clients' organisations and understand their key objectives and priorities in order to determine the optimum potential of development sites.
- We inject energy and flair into projects through hands-on leadership of the design team -- and believe that a collaborative working approach encourages enjoyable and creative working environments -- to produce high-quality designs with an appropriate balance between Quality, Cost, and Time.
- We believe that the Project Team greatly benefits if contractors and specialist subcontractors are involved in the design process at the earliest possible stage.

OUR ARCHITECTURE

 We provide the full range of RIBA architectural services – with the principal aim of producing architecture that is confident, human in scale, and rich in detail. hamilton.

THE OWNER OF TAXABLE PARTY.

- Our designs take full account of context and achieve a real sense of place for their users.
- We have worked throughout the UK, Germany, Italy, Egypt, India, Pakistan, and Venezuela.

Examples of our work are illustrated in the following pages:
